Passed Senate (01/22/2020)

This resolution sets forth related procedures for consideration of the articles of impeachment against the President that include

- filing of certain records of the articles of impeachment by the House of Representatives;
- establishing deadlines by which the President and the House must file certain motions related to the articles and any responses to the motions;
- providing guidelines for arguments on such motions and presentations by the House and the President;
- authorizing Senators to question parties;
- making it in order, after deliberation by the Senate, for the Senate to vote on a motion to consider and debate, under the impeachment rules, any motion to subpoena witnesses or documents;
- making it in order, following the disposition of that question, other motions provided under such rules;
- requiring the Senate to depose such witnesses and decide which witnesses shall testify, if it agrees to allow the House or the President to subpoena witnesses;
- making testimony inadmissible unless the parties have had an opportunity to depose such witnesses; and
- requiring the Senate to vote on each article of impeachment at the conclusion of its deliberations.
