The City of Los Angeles has aggressively sought proposals for the development of supportive housing for homeless individuals and those at risk of homelessness throughout the City. The Proposition HHH Supportive Housing Loan Program is funded by Proposition HHH (Prop HHH), approved by city voters in 2016.

To facilitate project and program proposals using both traditional and innovative financing and construction techniques, the City has released three (3) funding and/or City-owned property proposal opportunities seeking the best design and development ideas from the community.

First was a Request for Proposals for innovative design projects on a City-owned parcel using HHH Funding. Please click [here](#) for details.

Second was the (regular) 2018-19 Round 3 HHH Call for Projects, please click [here](#) for details.

And lastly was the HHH Housing Innovation Challenge Request for Proposals, please click [here](#) for details.
